**Attachments:** Summary of Impacts to Aquatic Life in the Elk River Valley DRAFT v1.docx

**Erin, Sue, Genny-**

I thought that you might find the attached draft document helpful. I went through several recent reports from the Elk River valley and highlighted sentences/paragraphs that document the variety of aquatic life and human health impacts that currently occur. This is by no means an exhaustive literature review – rather, I focused on high level quotes from recent relevant reports, and underlined a few key sentences. I also did not include any data interpretation or analysis. Please consider this a draft “work in progress”. If it helps, I can send you further updates.

Jason
